## 3D MECHANISM

The 3D mechanism Chair offers the student comfort thanks to its generous seat pan and seatback that provides some flex front-to-back and right-to-left as well as pronounced lumbar support, encouraging good posture of the student.

The chair with 3D mechanism based on that seating not a passive participant in the classroom, but an active one, one that can help the learning process. If it serves the curriculums to have the student focus her or his attention to the front. Subtle flex in the 3D mechanism Chair's back provides some movement for the student, but movement to the sides and back is limited.

5-Star base in Black/Silver. Choose casters or glides.

## CAFETERIA SEATING

Cafeteria Seatings make the environment look neat and easy for maintenance. It comes with a choice of free standing or floor mounting legs, provides a refine and efficient solution for seating in a cafeteria.

Prima One beam chairs not only offer the possibility of many seating arrangements but also blend with a wide range of environment such as auditoriums, seminar facilities, lecture halls, reception areas.

Enhanced beam seating gives off an air of elegance and designer look in the public area.
